

COVID Extension - Training & Activities

First canceled class was March 7, 2020
 First canceled drill was March 21, 2020
 First canceled public service event was April 25, 2020

Activities (Drills, Training, Public Service) resumed July 1, 2021.

For any activity required for a Credential that expired after March 6th, 2020, the two-year period for that event will be extended by the number of months that the two-year period falls within the COVID shutdown. The extension period will begin at the end of the COVID shutdown (red area), or the end of the two-year period which ever is later.

For example, an activity that was completed on November 20, 2020 (Example 6) would have 8 months until the end of the COVID shutdown on July 2021. That 8 months would be added to the normal two-year period allowed for that activity.

Applies to the two-year requirement for training or activities.
 Does not apply to one-year requirement for equipment checks or knowledge tests.
