Key	Description	Notes	Description
-ascii	ICS309 delivered as ascii text file, not PDF as instructed when using Outpost	[0]	For 3rd party messages, scorecard is based on first message received, unless corrected with a proper resend
-b23	lost B23 alignment for "form serial number", line/comma issues	[1]	Had "Xanadu City Airshow Checkpoint XX", missing "- Monthly Message Exercise"
-ci/co	Check-In or Check-Out didn't follow XSCPERM and/or Subject format	[2]	"not sure how long would last"???
-counts	counts should all be numeric	[3]	used equivalents that are ok, but not exact "fax" terminology
-creative	extra content not included in original message	[4]	received more than once
-csvcommas	some or all commas missing from csv content	[5]	referenced op-to-op heads up, should have been no reference
-#cells	all #'s to be replaced were in individual cells, something happened	[6]	One "TO" issue, should be XNDEOC and not XND050, "radio officer" -> "radio operator"
-XDHM	Didn't replace XX (tactical number), DD (day), HH (hour), and/or MM (minute) with current time		
-exercise	Message did not contain "****" this is exercise traffic "****" in the content, or equivalent (does not apply to check-in/out)		
-fax	Form content spelling error in non-critical information or gratuitous typo fix		
-fields	Missing field content, e.g. "prepared by" with real name, not tactical		
-ref	Reference information missing		
-power	Missing request power and operational duration time on battery		
-refnum	Reference message number should be XND-741P or similar ref to XND@XSC notice subject		
-qty	Resourc request quantity, match scenario?		
-subject	Incorrect subject, differs from instructions or msg ID issues		
-task#	ICS-309 Task number field should just be the simulated exercise activation number		
-taskN	ICS-309 Task Name not as instructed, may be cut-and-paste problem		
-XND	Message prefix not XND tactical format, e.g. XND010, XND050, etc.		
-source	Note to Mark: need to specify better formats for ics309 data.		
+latlong	Provided correct lat/long		
+reref	Message resent (with "R") to add "reference" and with original msg ID		
+sig	Bonus! Signed the ICS-309		
+special	Good use of special field to include ICS213 content		

Good
