Description
0 For 3rd party messages, scorecard is based on first message received, unless corrected with a proper resend
1 Missing message number, handling order, and HH:MM wasn't replaced
2 All three submitted forms have some small issues
3 Resent message with same msg number and exercise traffic added - suffix should be an "R"
4 Extra characters at beginning of message - form won't open in addon. However, could read text version.
5 Check-out message was 113M received at XND. Log says 114M. Delivered was noted as 113M.
6 No need to backfill information in FROM and TO columns with delivered information.
7 No record of XND@XSC notice download in log
