Description
0 For 3rd party messages, scorecard is based on first message received, unless corrected with a proper resend
1 Sender was FCC callsign, not tactical call sign, consistent through exercise
2 Received a 2nd "notice read message" with incorrect subject, first message was fine
3 Resend fix some nits in original message
4 Interesting "spelling" issue side note
5 Interesting use of "w/signature"
6 CSV file content not stated in message or in Subject
7 Hash marks used
8 States "Attached Mike-mike summary" but no other message received
9 Alt method message looks good
10 Content there but not column-aligned for fix-width text font
11 Interesting use of second message to hold csv only content
12 Column alignment not present
13 Did not come out when printed - columns too wide, lines wrapped with lost text. Sent twice, same issue with both. 3rd one, csv format, I
14 Received a bad format muni-stat at 18:52 followed by the properly formatted Juristat at 19:01
15 Only sent reporting tota, did not send tallies on form as handed to operator
Good
