Description
0 For 3rd party messages, scorecard is based on first message received, unless corrected with a proper resend
1 Sender was FCC call sign, not tactical call sign
2 Wrong message subject
3 MHJOC location is not operating was merged into Xanadu County EOC departments.
4 Didn't replace "<"s
5 Didn't replace "?"s
6 Meant to be CSV content? No indication in Subject or Message
7 Interesting handwriting interpretation, and/or operator note
8 Author intended this to be an "Update" and not a "Complete"
9 Got carried away with odd/random capitalizations
10 Resend has "**** this is exercise traffic ****" inserted as a PacketForm field, cause form error on open.
11 ICS From position. Expected Radio Operator, etc. Not Logistics
12 Delivered messages were excluded, directions are to exclude nothing
13 Check-in subject does not follow county standard and tactical call incorrect
14 Sender was XND046 which not assigned for this exercise. Prefix was correct as X92
15 Sender appears to have combined two separate messages into one Check-In subject
16 Extra stuff at appended to Subject line
